*Fulton County...*

### **Day and Evening Single Lane Closures on SR 166 near Boat Rock, New Hope Roads for Underground Utility Work Next Week: *Expect Traffic Delays***

**WHAT:** Contractors for the Georgia Dept. of Transportation (GDOT) will install a single lane closure on SR 166/Campbellton Road near the intersections of Boat Rock Road and New Hope Road in Fulton County next Tuesday and Wednesday. These closures are related to installation of storm drainpipe and water insertion valves as construction of the SR 166 at Boat Rock and New Hope Roundabout project continues.

#### **WHEN/WHERE:**

**Weather and on-site conditions permitting, single lane closures will be installed on SR 166/Campbellton Road westbound in the project area from 9:00 a.m. until 6:00 p.m. on Tuesday, October 27 and Wednesday, October 28.**

**GDOT advises residents and commuters in the project area to plan ahead, allow extra travel time and/or identify alternate routes to your destinations during these closures.**

Contractors on this project have been limited to closures that end at 4:00 p.m. to minimize traffic impacts in the area. However, extended work hours for these two weekdays would avoid the need for weekend lane closures for this critical underground water line work. Signage and message boards will alert drivers in advance of the closures.

**ADVISORY:** In the face of the current coronavirus pandemic, the work of the Georgia Department of Transportation continues while adhering to recommended precautions. Our contractors and our project teams who oversee construction projects are following sanitary work practices as directed by local officials and as prescribed by health agencies to protect themselves and the public from the spread of coronavirus. This situation is rapidly evolving and GDOT will continue to respond as needed to protect the health and safety of our team members and the public.
